

Publications acknowledging IGCP653, 2019

1. Barnes, C.R. 2019. Impacts of climate-ocean-tectonic changes on Lower Paleozoic conodont evolution and ecologic organization evidenced by the Canadian part of Laurentia. *Palaeogeography, Palaeoclimatology, Palaeoecology*, Special Issue (Ferretti, A., Bancroft, A. and Repetski, J., eds.). <https://doi.org/10.1016/j.palaeo.2019.02.018>
2. Bernárdez, E., Esteve, J., Laibl, L., Rábano, I. & Gutiérrez-Marco, J.C. 2019. Early post-embryonic trilobite stages and possible eggs from the 'Túnel Ordovícico del Fabar' (Middle Ordovician, northwestern Spain). *Fossils & Strata* 64, 23–33. doi: 10.1002/9781119564232.
3. Candela, Y., Gutiérrez-Marco, J.C. & Sá, A.A. 2019. New data on the 'giant' obolid fauna (Brachiopoda) from the Armorican Quartzite facies (Lower Ordovician) of the Iberian Peninsula. In: Obut, O.T., Sennikov, N.V. & Kipriyanova, T.P. (Eds.), 13th International Symposium on the Ordovician System: Contributions of International Symposium. Trofimuk Institute of Petroleum Geology and Geophysics SB RAS – Novosibirsk National Research State University, Publishing House of SB RAS [ISBN 978-5-7692-1657-2], Novosibirsk, 27–29.
4. Carrera, M.G. and Sumrall, C. 2019. Ordovician sponges from the Lenoir Limestone, Tennessee: new evidence for a differential sponge distribution along the margins of Laurentia. *Journal of Paleontology* doi: 10.1017/jpa.2019.67
5. Chaubey, R.S., Vinn, O., Singh, B.P., Bhargava, O.N., Prasad, S.K. & Kishore, N. 2019. Warm water Dasycladaceae algae from the Late Ordovician of Parahio Valley, Spiti, India. *Estonian Journal of Earth Sciences* 68, 45–53.
6. Chen, Q., Zhang, L., Fan, J., Li, C., Zhang, Y. 2019. Are there any links between biodiversity and paleogeographic differentiation in the Ordovician? *Acta Geologica Sinica (English Edition)* 93 (Supp. 1), 90–93.
7. Dronov, A.V. 2019. Global correlation of the Ordovician depositional sequences. In: Obut, O.T., Sennikov, N.V., Kipriyanova, T.P. (Eds.) 13th International Symposium on the Ordovician System: Contributions of International Symposium. Novosibirsk, Russia (July 19-22, 2019). Trofimuk Institute of Petroleum Geology and Geophysics SB RAS; Novosibirsk National Research State University. Novosibirsk, SB RAS Publishing House, pp. 37–38.
8. Dronov, A. & Kushlina, V. 2019. Ordovician trace fossils of Siberia: responses to climatic events and connection with Gondwana, Baltica and Laurentia. In: 15th International Ichnofabric Workshop. Prague, Czechia, April 27th–May 3rd, 2019. Program, Abstracts, Field Guide. Institute of Geology, Czech Academy of Sciences. p. 11
9. Dronov, A.V., Huff, W.D., Kanygin, A.V., Timokhin, A.V., Gonta, T.V. 2019. K-bentonites in the Ordovician of the Siberian Platform. In: Obut, O.T., Sennikov, N.V., Kipriyanova, T.P. (Eds.) 13th International Symposium on the Ordovician System: Contributions of International Symposium. Novosibirsk, Russia (July 19-22, 2019). Trofimuk Institute of Petroleum Geology and Geophysics SB RAS; Novosibirsk National Research State University. Novosibirsk, SB RAS Publishing House, pp. 39–40.
